International Bar Association

the global voice of the legal profession

The International Bar Association (IBA), established in 1947, is the world's leading organisation of international legal practitioners, bar associations and law societies.

The IBA influences the development of international law reform and shapes the future of the legal profession throughout the world. It has a membership of more than 80,000 individual lawyers and more than 190 bar associations and law societies spanning over 170 countries.

Inspired by the vision of the United Nations, the IBA was founded in the same spirit, just before the Universal Declaration of Human Rights was proclaimed in 1948.

The IBA covers all practice areas and professional interests, providing members with access to leading experts and up-to-date information, enabling them to better represent their clients' interests.

Through its various committees, fora and task forces, the IBA facilitates the exchange of information and views among its members as to laws, practices and professional responsibilities relating to the practice of law around the globe.

IBA Asia Pacific Regional Forum overview

The IBA Asia Pacific Forum, the second largest forum of the IBA with close to 2500 members, offers fantastic opportunities to establish contact among lawyers within and outside the region, and with acknowledged experts on different areas of law.

Specialist Forum activities provide an unparalleled opportunity to keep abreast of legal business developments in the region. Members also benefit from excellent working relations with national bars, the Inter-Pacific Bar Association and LAWASIA (the Law Association for Asia and the Pacific).

IBA Litigation Committee overview

The IBA Litigation Committee focuses on the legal, practical and procedural issues involved in conducting litigation. Differences and developments in individual jurisdictions are compared. The issues arising in international litigation receive particular attention, including issues such as jurisdiction, choice of law and the role of international judicial assistance in dispute resolution. Practitioners involved in larger scale or international litigation can debate topical issues and share their experiences of handling and solving the problems arising from such disputes. In particular, the Committee seeks to explore the differences of approach between common law and civil law traditions, and to encourage a dialogue between practitioners from these two systems.
